

Extended Data Fig. 10 | Orthogonal support for CAF/matrix compartment and TGF/EMT stromal-interface organization

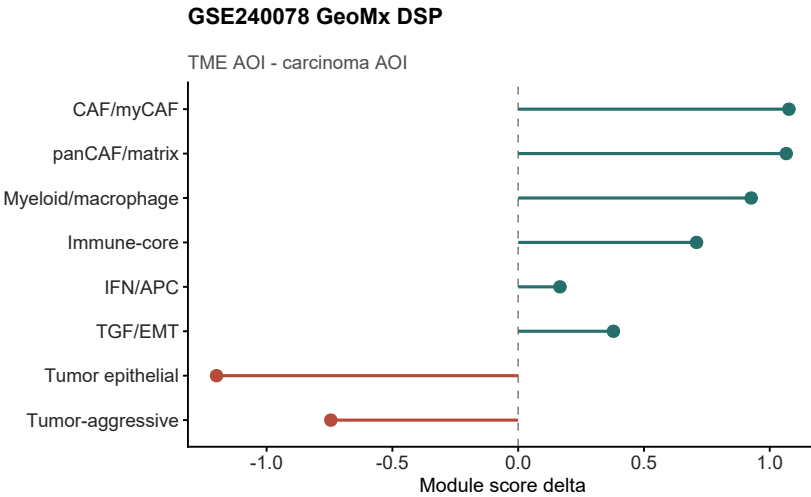

A

Orthogonal validation logic

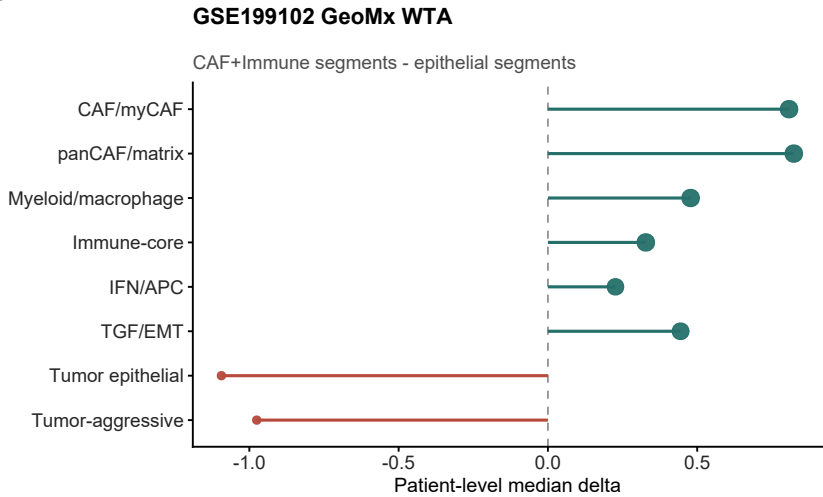

Orthogonal support only: no causal or direct SPP1-CD44 claim

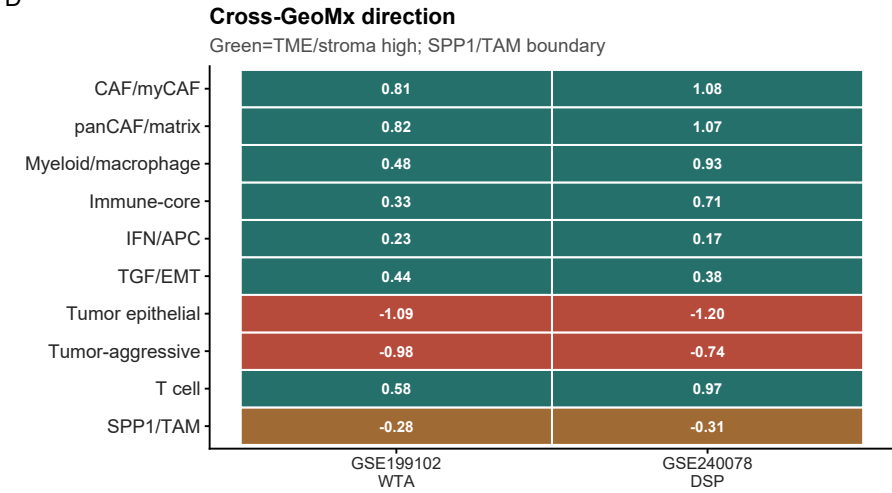

B

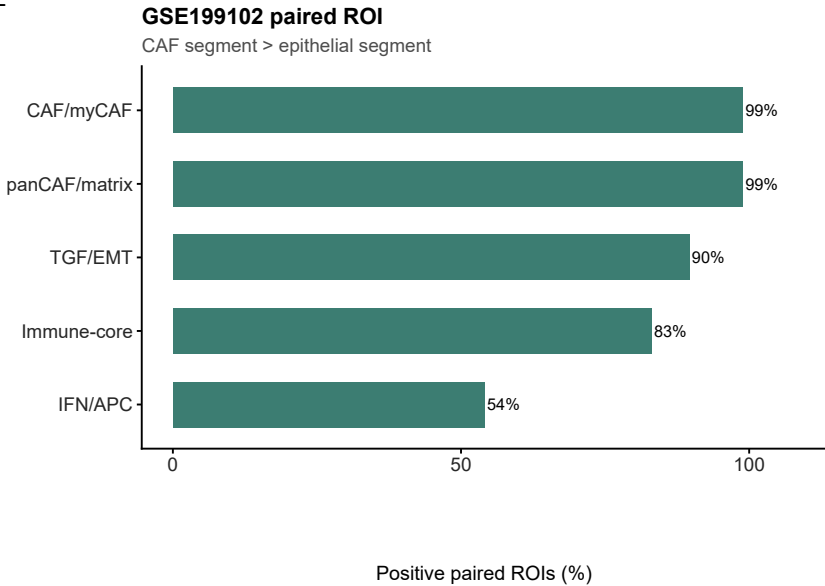

C

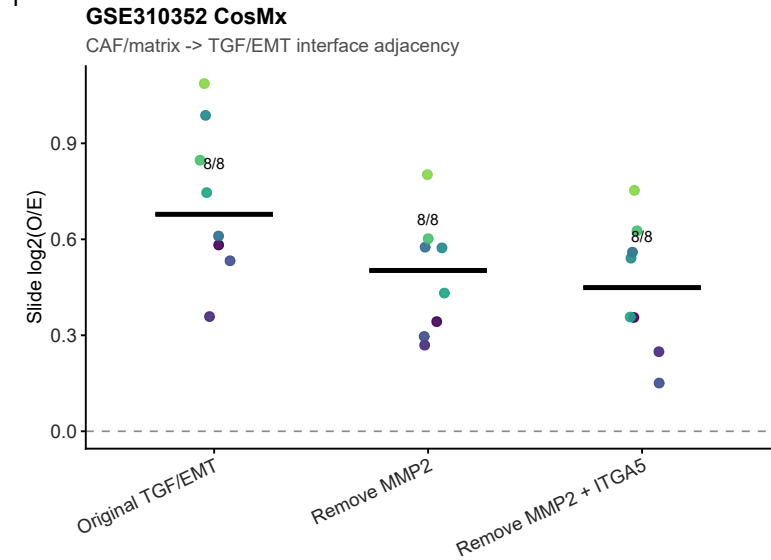

D

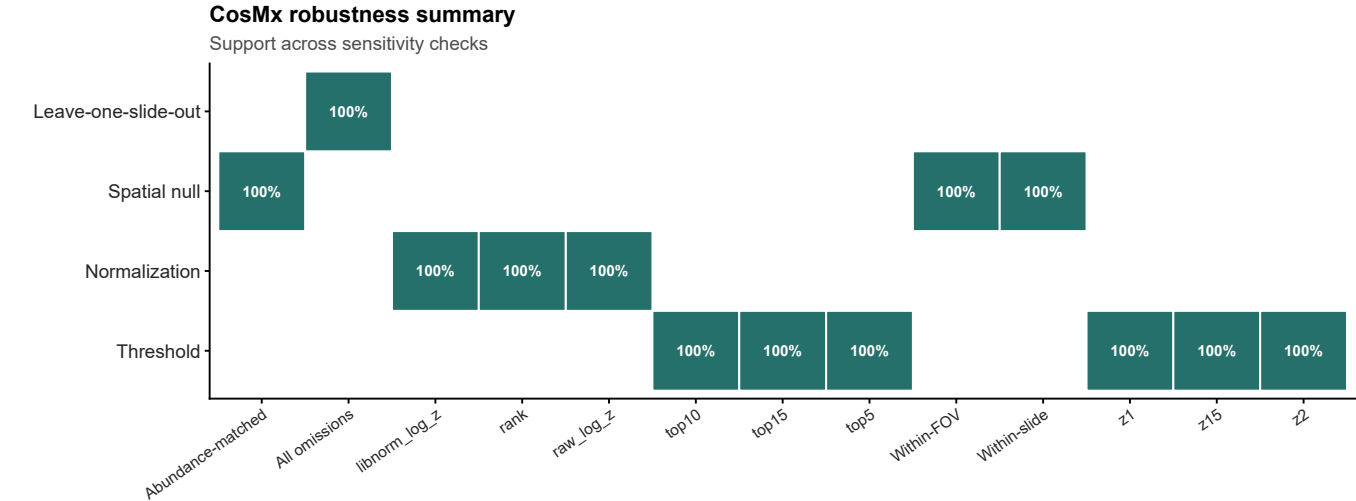

E

F

G

H

Inference scope

Supported

GeoMx compartment-level CAF/matrix and immune/TME programs
CosMx CAF/matrix-associated TGF/EMT stromal-interface organization

Not claimed

Causality; direct SPP1-CD44 validation; tumor-intrinsic EMT;
Visium distance-gradient reconstruction; LN immune uncoupling.
